6.3 Emergency Management Plan

Policy Section: General

Introduction

The College of Dental Technologists of Ontario is strongly committed to promptly and efficiently responding to any emergencies that could impact the essential and core business functions of the College. An “emergency situation” is defined as catastrophic events such as natural disasters, a pandemic, terrorist attacks, or situations that may or could cause potential harm to a College staff, Registrants, Committee members, Board of Directors, peer assessors, markers, invigilators, or any other individuals who carry out College business.

The purpose and goal of this policy are to design and implement a cohesive plan that will help the College maintain and continue regular operations during the handling of an emergency.

Implementation

The Registrar has sole authority to determine when the Emergency Management Plan needs to be implemented and in full effect when responding to a declared emergency in a manner congruent with any public declaration of emergency. The Registrar in such circumstances, will inform the Chair and Directors when the Emergency Management Plan is implemented. The Registrar will convene an Executive Committee meeting as soon as possible to report on the situation.

If remote operations are deemed necessary, College staff will adhere to the administrative procedures and guidelines set by the College and the Work from Home Preparedness policy.

Leadership

Board and Committees are expected to continue their governance role to the extent possible, given the nature and scope of the declared emergency and the operational capability of the College.

Should the Registrar be unable to fulfill the role during a declared emergency, the Manager of Registration or the Manager of Professional Practice, Conduct, and Regulatory Affairs will act as Deputy Registrar until either the Executive Committee or Board meets to appoint an Acting Registrar. If either Manager is not able to perform this function or requires further support, the CDTO can call on a coalition of Registrars on the Health Profession Regulators of Ontario (HPRO) that have agreed to perform this function.

Emergency Situations

7.0 Evaluation

Purpose

The CDTO believes that effective governance is a shared responsibility. In order to ensure ongoing effectiveness, the College is committed to ongoing evaluation of the Board, the Committees, and the Registrar using collaborative and constructive processes. These evaluations enable the College to identify and seek opportunities to promote good governance in carrying out its mandate.

7.1 Registrar Performance Evaluation

Policy Section: Evaluation

Introduction

The annual performance evaluation of the Registrar is a key responsibility of the Board. The Board delegates authority for management and operations to the Registrar, and the Registrar's performance is essential in ensuring the continued sound management of the CDTO and the achievement of the goals and objectives set out by the Board. A formal evaluation ensures that the Board and the Registrar have a clear consensus on the organization's goals, job expectations, and performance measures.

CDTO's process is intended to foster a mutually supportive and respectful relationship between and among the Registrar, Executive Committee, and Board, which sets the stage for effective governance, leadership, and management of the College. No single set of relationships is more important for success.

Benefits

The purposes and benefits of such performance review include:

1. Strengthen organizational effectiveness.
2. Strengthen congruence between the mission, goals, and objectives of the College and those of the Registrar.
3. Provide an annual context for periodic identification and discussion of Registrar professional development needs and opportunities.
4. Provide a formal context for the Board to communicate performance expectations and constructive performance feedback to the Registrar.
5. Establishing parameters for Registrar performance that enable the Board to retain, provide constructive feedback regarding professional performance, and, if necessary, create records that could be used as a reference during a termination.

6. Provide the Registrar with an opportunity to raise issues and opportunities, and to bring forward suggestions for support that they may require from the Executive Committee and/or the Board in order to maintain effectiveness.

Procedures

The annual evaluation process includes the following elements:

1. The Board establishes a set of Registrar performance criteria, and these may be revised from time to time as appropriate in consultation with the Registrar.
2. The Executive Committee will oversee and lead the annual performance evaluation process as established by the Board, consulting with the Registrar where appropriate and with the support, facilitation, and advice of an independent external advisor.
3. At the beginning of the performance year, Executive Committee, in consultation with the Registrar, will establish any priority weighting for that year to be applied to the approved performance evaluation criteria.
4. The Registrar will prepare a year-end summary report that describes progress and accomplishments against the Registrar performance evaluation criteria and highlight key commitments and Board priorities. This is a confidential document, for Board members only, and specifically for the purposes of informing their evaluation of the Registrar. The report is vetted for accuracy and completeness by Executive Committee before it is shared with the Board.
5. The inputs to the evaluation will consist of:
 - a) All Board members will complete an evaluation survey.
 - b) A subset of Board members will be interviewed by the external advisor to explore emerging themes and issues.
 - c) External stakeholder input will be obtained through one or a combination of the following: a) an online survey; and/or b) an interview with the external advisor.
 - d) Input from staff will be obtained through a confidential non-identifying and anonymous survey administered by the external advisor.
6. The inputs will be collected and analyzed by the external advisor and the results will be presented in a report to Executive Committee. No member of the Board or staff will see or have access to the survey input or interview notes.
7. Executive Committee will meet in camera, supported by the external advisor, to discuss the results and reach an agreement on the evaluation, including any learning and development opportunities, as well as compensation.
8. Executive Committee will then meet with the Registrar to review the report with a view to reaching a consensus on the results.
9. Prior to the meeting between the Registrar and the Executive Committee, the results of the evaluation will be shared with the Registrar, and they will have an opportunity to be briefed by the external advisor.

10. At its next meeting, the Board will be briefed on the results of the evaluation and Executive Committee decisions related to compensation.

7.2 Performance Evaluation for Board and Committees

Policy Section: Evaluation

Introduction

An effective Board is the direct result of Directors understanding the College's mandate, responsibilities, and accountabilities; adhering to policies and procedures of the College; constant diligence and vigilance in their work; and consistently striving for improvements in how Board carries out its duty to fulfill the College mandate.

CDTO's Board effectiveness evaluation process includes two streams of evaluation activity facilitated by a third-party governance advisor:

- Ongoing evaluation of Board and Committee meetings against a set of good governance behaviours and expectations; and
- An annual evaluation of the Board's effectiveness against an expanded set of good governance behaviours and expectations, as well as the generation of strategies and actions for continuous improvement.

The two streams of activity are complementary and additive. The individual Board and Committee meeting evaluations inform, support and build during the course of the year towards the Board's annual evaluation.

Benefits

The benefits of the Board's approach to ongoing and annual evaluation include:

- Defining and reinforcing good governance behaviours and expectations for members on an ongoing basis.
- Creating an environment of continuing self-reflection for members both individually and collectively.
- Creating an ongoing process to resolve emerging issues.
- Promoting a continuous improvement mindset and creating opportunities for Committees and the Board to have a line of sight for the Executive Committee into Committee operations and activities to ensure effective conversations about emerging governance-related issues.

Procedures

- All Board and Statutory Committee meetings are evaluated by members using an online survey that is distributed at the time of each meeting.
- All members participate in the evaluation process.

- The evaluation criteria are approved by the Board and refined from time to time.
- The evaluation includes a rating scale as well as an opportunity to provide comments and suggestions for continuous improvement.
- Where appropriate, the third-party advisor will follow up with individual members on comments and suggestions to obtain additional information or clarification.
- For each statutory committee and Board meeting, a report summarizing the evaluation input is prepared for distribution:
 - The report is reviewed in draft form by the Executive Committee and the appropriate Statutory Committee Chair as a means of providing the Executive Committee with a line of sight into committee effectiveness and potential emerging issues both within and across committees. An emerging issue or opportunity may also prompt a discussion between the Executive Committee and the Committee Chair
 - The report is included on the agenda for the next Board or Committee meeting and there is an opportunity for any member to ask questions or raise issues. The President or Committee Chair may also initiate a dialogue about an issue or opportunity that arose through the evaluation.

Board Annual Evaluation:

- All Board members participate in the annual evaluation process through a combination of online survey input and follow-up interviews with a sample of Board members.
- The annual evaluation criteria are approved by the Board and refined from time to time, including a rating scale as well as an opportunity to provide comments.
- The annual evaluation criteria expand upon the evaluation criteria for meeting evaluations, exploring these in more detail and including additional elements.
- Board members are also asked for their suggestions for Governance continuous improvement priorities for the coming year.
- Where appropriate, the third-party facilitator will follow up with individual members on comments and suggestions to obtain additional information or clarification.
- At the same time, Board members had the optional opportunity to conduct a self-assessment tool that may assist them to reflect upon their own personal performance and developmental need.
- The survey and interview input is collected and analyzed by the third-party advisor, who prepares a draft report to the Board including recommendations where appropriate.
- The draft report serves as a discussion instrument for a Board dialogue about governance effectiveness and potential continuous improvement priorities and actions to be taken in the coming year.

- A final report that incorporates the Board's decisions about continuous improvement priorities is tabled at the next Board meeting as part of the publicly available meeting materials.
