## Dental Technologists (2009)

The answers that you submitted to OFC can be seen below.

This Fair Registration Practices Report was produced as required by:

- the Fair Access to Regulated Professions Act (FARPA) s. 20 and 23(1), for regulated professions named in Schedule 1 of FARPA
- the Health Professions Procedural Code set out in Schedule 2 of the Regulated Health Professions Act (RHPA) s. 22.7 (1) and 22.9(1), for health colleges.

### Provision of Information About Registration Practices (1 / 13)

**Describe how you make information about registration practices available to individuals applying or intending to apply for registration. Specify the tools used to provide information, and the manner in which you make that information available, current, accurate and user friendly in each of these subcategories:**

#### a) steps to initiate the registration process

The College of Dental Technologists of Ontario ("College") provides information about its registration practices to persons applying or intending to apply for registration through the following different communication methods:

Mail, electronic-mail, telephone, fax and; in person during the hours of operations Monday to Friday, 9:00am to 5:00pm. The College also provides information to George Brown College, currently the only education institution in Ontario that offers a post-secondary education program in dental technology.

#### b) requirements for registration

To register to practise as a Dental Technologist in Ontario, a person must provide:

- Successful completion of Grade 12 or equivalent general education;
- Successful completion of a dental technology program in an accredited post-secondary educational institution that the Registration Committee considers to be equivalent to at least 80% of the Required Competency Standards for CDTO Registration Examination;
- Completion of 1,950 hours of practical work experience in Ontario under the supervision of a member of the College or the Royal College of Dental Surgeons of Ontario.
- successful completion of the Registration Examination which includes a 2-hour written Dental Technology Theory examination, a 1½-hour written examination on Jurisprudence and Ethics and a 4 ½-day Practical examination. All examinations are held in Ontario.

#### c) explanation of how the requirements for registration are to be met, such as the number of years of schooling required for a degree to be deemed equivalent to an Ontario undergraduate degree, length

## and type of work experience, credit hours or program content

Education is generally 3 years in length at the post-secondary level although individual exceptions can be made if the course content is equivalent to a three-year program in Ontario. The College uses the expertise of the International Credential Assessment Service of Canada (ICAS) to make a recommendation to the Registration Committee on education equivalency. The College provides ICAS with a competency profile to help them.

Practical experience totaling 1950 hours is obtained in a dental technology laboratory.

## d) any education or practical experience required for registration that must be completed in Ontario or practice that must be supervised by a member of the profession who is registered in Ontario

As per the College's Registration regulation (O.Reg.874/93) individuals applying or intending to apply for registration, must be employed as a dental technologist in an apprenticeship program, for a period of not less than 1,950 hours, under the supervision of a member of the College or its predecessor, or of a member of the Royal College of Dental Surgeons, or in such other supervised employment outside of the Province of Ontario as the Registration Committee may approve.

## e) requirements that may be satisfied through acceptable alternatives

The Colleges' Dental Technology Act, 1991, as well as the Ontario Registration Regulation 874/93, provides acceptable alternatives to registration requirements.

For example, an acceptable alternative to a requirement would be an "equivalent" as cited in O.Reg 874/93 as follows:

5. (1) 1. i. B. an applicant must have successfully completed an approved program in dental technology at a College of Applied Arts and Technology in Ontario, or at an educational institution outside of Ontario that the Registration Committee considers to be the equivalent to the educational program currently being taught in the Colleges of Applied Arts and Technology in Ontario

Alternatives are considered for applicants who do not meet the registration requirements on an individual basis. In addition, where an applicant cannot obtain the necessary documentation they may apply to take the "Eligibility Examination" as a means of showing competency. If successful the candidate may apply for the Registration Examination.

## f) the steps in the assessment process

Assessment steps are as follows:

Candidates must have their education assessed by International Credential Assessment Services of Canada (ICAS).

ICAS sends report to CDTO and we communicate with applicant enclosing an appropriate application form.

Candidate submits the completed application form with the documentation required and returns it to us by the specified deadline.

Reviewed by staff. If all requirements met, candidate goes to the Registration Exam.

If requirements are missing candidates are told about the deficiencies and asked to meet them.

When requirements are met candidates may sit the registration exam.

Upon successful completion of the Registration exam the candidate may apply to be registered.

If the Registration exam is not successful a candidate may re-sit the component they failed within 3 years.

g) the documentation of qualifications that must accompany each application; indicate which documents, if any, are required only from internationally trained applicants

All candidates, international and domestic must submit the same documentation.

The following documentation of qualifications must accompany each application:

- 2 identical passport size photos
- Proof of Citizenship or Permanent Resident status
- High school and post-secondary dental technology education
- Two Character References ( not a family member)
- Proof of supervised practical experience
- Attach a certified cheque or money order in Canadian funds made payable to the "College of Dental Technologists of Ontario"

h) acceptable alternatives to the documentation if applicants cannot obtain the required documentation for reasons beyond their control

The College gives applicants information on acceptable alternatives to documentation if they cannot obtain the standard documentation for reasons beyond their control. Applicants may contact the College to discuss documentation alternatives on a case-by-case basis.

i) how applicants can contact your organization

Applicants may contact the College by mail, electronic-mail, telephone, fax, website and in person during the hours of operations Monday to Friday, 9:00am to 5:00pm.

The college communicates by way of letter and telephone, fax, electronic mail, and mail; i.e., acknowledging an application, requesting additional information. If they take no action to complete the registration process they are contacted annually to remind them of their status. This would continue for three years. After this their application is destroyed and candidate would need to re-apply.

k) the process for dealing with documents provided in languages other than English or French

Documents not in English or French are required to have certified translations sent to the College.

l) the role of third-party organizations, such as qualification assessment agencies, organizations that conduct examinations or institutions that provide bridging programs, that applicants may come into contact with during the registration process

International Credential Assessment Service (ICAS) is the only third party that the College uses. Candidates provide ICAS with copies of their transcripts for evaluation. Candidates are provided with reports of that evaluation.

m) any timelines, deadlines or time limits that applicants will be subject to during the registration process

The College provides information about the timelines at different stages of the registration process. Individuals applying or intending to apply for registration must adhere to the following timelines:

- Application for Registration exam are only held open for 3 years

n) the amount of time that the registration process usually takes

The process begins when the applicant submits a complete portfolio of information in application for the Registration Examination which would occur a minimum of 5 months before the Registration Exam takes place. An applicant has a maximum of 3 years to submit information and successfully complete the exam. Following successful completion, an applicant may apply for registration which is reviewed by the Registration Committee and a decision is rendered within 2 weeks.
